

Liquid Technology Makes Inc. 5,000 List for the Third Consecutive Year

NEW YORK, Aug. 31 /PRNewswire/ -- Liquid Technology is pleased to announce that they have made the prestigious **Inc. 5,000** list for third consecutive year. On the 2010 list, Liquid Technology is ranked at position 973 out of the top 5,000 fastest growing private companies in the United States.

Liquid Technology also finds itself ranked at No. 9 among Inc.'s Top 500/5000 Computer Hardware Companies and at No. 77 on the 2010 [Top 100 Businesses in New York-Northern New Jersey-Long Island, NY-NJ-PA](#). All three lists reflect the company's highest ranked positions thus far in its ten-year history.

"We are extremely proud and honored to be included on Inc.'s list for the third straight year," said Richard Greene, Liquid Technology's Vice President of Operations. "And the fact that we went from a rating of 1880 a year ago to number 973 in 2010 makes the recognition even more exciting to us. I think it makes a strong statement about the growth of our company, the quality of our services and our dedication to our customers," stated Greene.

Liquid Technology was founded in 2000 by I.T. professionals. The I.T. asset management firm provides equitable solutions to companies worldwide in need of managed asset-disposition and strategic advice.

The Inc. 5,000 list was created to expand on the well-regarded Inc. 500 list. The list compiles and ranks the fastest growing private companies in America. Many of today's most profitable public businesses were on the list before they became public.

Liquid Technology's four main services are: I.T. Asset Management, Brokering and Purchasing Excess I.T. Equipment, Auditable Data Destruction and Environmental Disposal of Electronic Waste. Clients of Liquid Technology come from a broad spectrum of industries, most of which are in various transitional situations from moving to merging, downsizing, entering Chapter 7, 11 Bankruptcy or updating their current I.T. inventory. Liquid Technology provides fair asset evaluations and impartial solutions to companies in need of managed I.T. asset-disposition. An acute understanding of current market conditions enables Liquid Technology to integrate specialized knowledge and technological expertise in recommending and executing deliberate business strategies and plans of action for asset disposal and recovery.
